CADOREIT/CARBOHYDRATE Salary

Ref : EOQA-11416, 1 June 54.

1. According to our records, CARBOHYDRATE now receives the following payments from KUBARK:

Salary	:	DM	8400	per year
Rent subsidy	:		1200	" "
Maintenance for car and dog	:		1500	" "
Insurance for car and dog	:		650	" "
TOTAL	:		11,750	" "

In addition, the Field Project Outline (EOGA-8483, dated 9 October 1953) listed a nominal amount of cigarettes, coffee, etc., to be paid from MPC funds. We consider that the total amount shown above is ample compensation for CARBOHYDRATE's services within the CADOREIT complex.

2. To simplify the present rather cumbersome procedure of reconciling payments to CARBOHYDRATE with the approved expense categories shown above, we request that you place CARBOHYDRATE on a straight salary basis, subject to clear understanding that he will pay all his extra operational expenses, such as insurance and maintenance for the watch dog, etc., and all taxes out of his salary. As of 1 July 54, we approve a monthly salary of DM 1000 which will have to come out of the CADOREIT project and which will cover all of the present special payments and also provide adequately for the loss of the coffee and cigarettes that were previously given him. Please firm up this arrangement with a written agreement or memorandum of oral understanding with CARBOHYDRATE.

3. In order to start CARBOHYDRATE off with a clean slate under this new arrangement, we also approve a one-time payment of DM 250 to clear up the obligations enumerated in reference.

4. Re paragraph 2 of reference, we can hardly agree that back or even future taxes constitute unforeseen emergency expenses. The Mission views on tax payments by agents not only require that the individual pay his own taxes but also that he pay income tax on an amount in line with his actual income, including all compensation from KUBARK.
